conscious living

Latis

Inspired by the fundamentals of tradition and quality, Latis is a truly luxurious bathroom collection with eternal appeal.

The Latis forms borrow from the crafts — from spinning clay on a wheel to the traditional nature of the trestle. When designing Latis my intention was for the material relationships to create a sentiment of history whilst maintaining a contemporary sensitivity

Thomas Coward Omvivo Principal Designer.

Product
Latis basins

Available in a range of finishes, the sculptural Latis round and rectangular basins offer a functional bowl. Each basin is supplied with a polished chrome pop up plug and waste.

Latis trestle

This sophisticated yet uncomplicated piece of furniture is designed to partner the Latis basins. The selection of shelf finishes compliment the trestle beautifully and can be selected to contrast or match the finish of the basin.

Latis bath

The freestanding Latis bath, created from solid surface is luxuriously deep yet compact to suit most bathrooms. The bath is available on its own, or with the practical timber storage end.

Finishes

Natural stone

The ultimate in luxurious finishes, natural stone is admired for its beauty, strength and personality. The Latis basins and shelves are handcrafted from solid stone with vein, fossil and quartz providing individuality in every piece.

Solid surface

Solid surface provides a wonderful smooth surface that is extremely hard wearing, durable and easy to maintain - ideal for the bathroom environment.

Softskin

Softskin is a durable finish applied to solid surface that provides a unique two tone effect available in four colours. With its soft tactile surface, Softskin is a contemporary and playful way of introducing colour into the bathroom.

American oak

American oak, an attractive warm timber finish, adds a natural element to the bathroom and offers a beautiful contrast with solid surface and other finishes.
